About SwissCCS

We stand up for the interests of our members!

SwissCCS is a scientific and technical professional association for the promotion of cleanroom technology in all its aspects. It is a non-profit association with approx. 110 collective and approx. 70 individual members.

SwissCCS organises conferences and specialised seminars. It represents Switzerland in the international standardisation bodies for cleanroom technology. Anyone who is interested in cleanroom technology or contamination control can become a member.

As a SwissCCS member you benefit from the following services!

You benefit from discounted conditions when participating in training courses and seminars organised by SwissCCS or partner organisations.

SwissCCS regularly informs its members about events and training opportunities in the field of cleanroom technology in Switzerland and abroad via the SwissCCS Bulletin in the magazine CCR (Contamination Control Report). It provides up-to-date information on theory and practice as well as on association activities.

Why do we need SwissCCS?

It is well known that together we can set much more in motion and achieve much more than alone. SwissCCS is open to professionals from Switzerland and abroad who are interested in cleanroom

Activities and Events

Activities by SwissCCS

SwissCCS organises seminars, often in collaboration with other specialist associations, to provide an introduction to cleanroom technology or other current topics. SwissCCS offers its members a forum for contacts with specialist colleagues from Switzerland and abroad as well as between suppliers and users of cleanroom technology. SwissCCS represents Switzerland in the international umbrella organisation of cleanroom technology societies, the International Confederation of Contamination Control Societies ICCCS.

In close cooperation with the Swiss Association for Standardisation SNV, **SwissCCS** supports international standardisation work in the field of cleanroom technology and actively participates in the relevant technical committees of the Comité Européen de Normalisation CEN and the International Organization for Standardization ISO.

Veranstaltungen

SwissCCS organises high-quality training courses, interactive specialist events and informative events for professionals and interested parties:

- 2-day basic & specialised training competence
- 1-day symposium in spring
- "As a guest at ...": Company visits with our members
- Various other exciting events events
